

# PRODUCT DATA SHEET

## PRODUCT DESCRIPTION

The Eurotec Flex-Stone-Clip and Stone-Edge-Clip are **specially designed** for the **Eurotec EVO and EVO Slim** aluminium system profile, and for the **HKP terrace support system**. It can also be used in combination with Eurotec adjustable feet. When combined with the Eurotec adjustable feet, it is possible to create a so far **unique, professional elevation of the substructure** for all types of concrete and **natural stone slabs**.

## FLEX-STONE-CLIP ADVANTAGES

- For clipping onto the aluminium system profiles in the installation location
- The new Flex Stone Clip is flexible enough to compensate for production-related tolerances of up to 2 mm in stone slabs.
- The joint width is 4 mm

## STONE-EDGE-CLIP ADVANTAGES

- For clipping onto the edge of the aluminium system profiles
- To prevent the stone slabs from slipping in the area around the edges, it is necessary to fix the clips with a profile drilling screw of 4.2 × 35 mm.
- The joint width is 4 mm

## MATERIAL

- Polypropylene

## IMAGES OF APPLICATIONS

Flex-Stone-Clip with impact sound insulation plate.

Stone-Edge-Clip with impact sound insulation plate.
