

PRODUCT DESCRIPTION

The swiveling bit holder is a practical tool to ensure the best possible power transmission when screwing in hard-to-reach places. After the holder has been pulled out, it can be adjusted by 22,5° in any direction. The bit holder is extremely robust and durable.

MATERIAL

- 6150 Cr-V, black painted aluminium

APPLICATION IMAGE

Sample usage: fastening a bracket in a hard-to-reach place using the swiveling bit holder.
