

Product data sheet – Deep Hole Marker

Product description

The Eurotec Deep Hole Marker Set makes it possible to mark areas that are particularly hard to access. The high-quality graphite leads are ideal for marking materials such as plastic, wood and steel. A refill box containing 6 replacement graphite leads is included in delivery. The pen features a high-quality metal tip, which is retractable.

Material

- Lace: Stainless steel
- Pen: ABS plastic

Advantages/Specifications

- The pen features a high-quality metal tip, which is retractable.
- Marking is possible on the following surfaces:
→ wood, metal, concrete, ceramics, plastics and many more.
- Integrated sharpener in the pencil cap
- The clip included ensures that a separate pen holder isn't required.
