PRODUCT DATA SHEET

FLEX-STONE-CLIP AND STONE-EDGE-CLIP

PRODUCT DESCRIPTION

The Eurotec Flex-Stone-Clip and Stone-Edge-Clip are **specially designed for** the **Eurotec EVO and EVO Slim** aluminium system profile, and for the **HKP terrace support system.** It can also be used in combination with Eurotec adjustable feet. When combined with the Eurotec adjustable feet, it is possible to create a so far **unique, professional elevation of the substructure** for all types **of** concrete and **natural stone slabs**.

Flex-Stone-Clip

Stone-Edge-Clip

Aluminium profile drilling screw

FLEX-STONE-CLIP ADVANTAGES

· For clipping onto the aluminium system profiles in the installation location

· The new Flex Stone Clip is flexible enough to compensate for

  production-related tolerances of up to 2 mm in stone slabs.

· The joint width is 4 mm

STONE-EDGE-CLIP ADVANTAGES

· For clipping onto the edge of the aluminium system profiles

· To prevent the stone slabs from slipping in the area around the edges, it is

  necessary to fix the clips with a profile drilling screw of 4.2 × 35 mm.

· The joint width is 4 mm

Compatible with

Impact sound insulation plate Ø 90 mm

i

Notes
The Stone-Edge-Clip is only used to prevent the stone slabs from slipping sideways. Due to the lever arm effect, it does not serve as a load-bearing structure against mechanical loads.

MATERIAL

· Polypropylene

IMAGES OF APPLICATIONS

Flex-Stone-Clip with impact sound insulation plate.

Stone-Edge-Clip with impact sound insulation plate.
