

PRODUCT DATA SHEET

ROUND WOOD CONNECTOR

PRODUCT DESCRIPTION

Eurotec's round wood connector is used to secure **round timber**. The **specially curved shape** makes it possible to use **the connector** flexibly.

ADVANTAGES

- The curved surfaces allow the round wood connector to optimally adapt to the contour of the wood.
- The optimised shape of the curved surfaces thus reduces the joints between the round wood connector and the wood.
- Offers the opportunity to minimise waterlogging and dirt accumulation.

MATERIAL

- Steel as per DIN EN S235JR
- Specially coated zinc flake coating

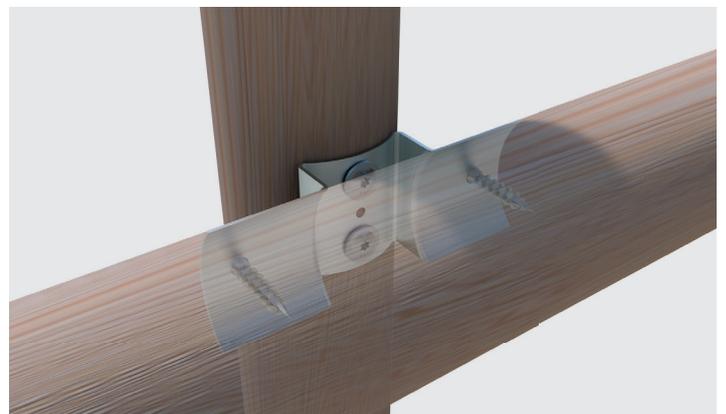

FASTENING RECOMMENDATION

Fasteners: Fence post connection screw \varnothing 8 mm
