

## PRODUCT DATA SHEET

## COLOUR CAPS HEX BOLTS

### PRODUCT DESCRIPTION

Eurotec colour caps for hexagon bolts allow you to achieve an optimum colour match between the colour of your screws and that of your sheet metal. For this purpose, our range covers the standard colours available on the market.

### ADVANTAGES

- Screws that are almost invisible, thanks to colour matching
- The cap provides additional protection for the screw head

### MATERIAL

- Polypropylen (PP)
- Resistant to weathering, UV exposure, insects and rot

\* On request and from a minimum order quantity, the colour caps can also be supplied in any RAL colour.

Grey white

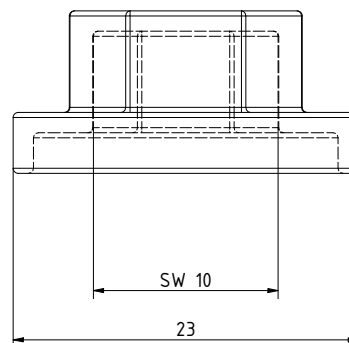

Sienna red

Dark brown
