## ROPE LOOP

### PRODUCT DESCRIPTION

The rope loop for drive-in nuts is a durable fastening element made of high-quality, corrosion-resistant steel. It is characterised by a high tensile strength and ensures safe load handling even under high loads. Installation is quick and uncomplicated, as it is compatible with many common drive-in nuts. Particularly in the construction industry, the rope loop is ideal for applications where long-term stability and reliable fastenings are required.

### ADVANTAGES / SPECIFICATIONS

- **Easy to install:** Quick and easy to install thanks to the metric thread.
- **Compatibility:** Fits M12 & M16
- The maximum load capacity is clearly stated, so that users can be sure to choose the right rope loop for their specific applications.
- **Use:** Multiple use is possible (*after testing*)

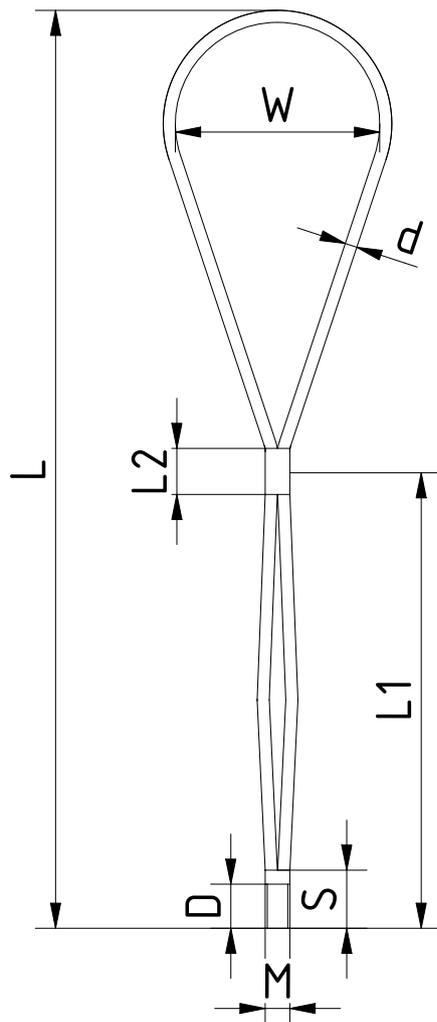

### PRODUCT TABLE

Rope loop					
Art. no.	Load class [t]	Height [mm]	Thread [dxh]	Weight [kg]	PU
111423	0,5	500	M12 x 22	0,164	1
111424	1,2	500	M16 x 27	0,313	1
