

621220 Mechanical pressure spindle

DESCRIPTION

The mechanical pressure spindle is the centrepiece of every KUKKO Pulling unit. This enables a maximum pulling force of 10 tonnes to be achieved. Manual operation of the Spindle ensures sensitive control of the pulling process. The fine thread also guarantees perfect power transmission. A reversible spindle tip enables the spindle to be positioned securely on smooth surfaces as well as when centring.

RANGE OF APPLICATION

For sensitive control of the honing process and perfect power transmission.

BENEFIT

- Optimum sliding properties in the thread thanks to special coating
- Ideal adaptation of the spindle to the shaft thanks to Two-sided spindle tip
- Bearing-mounted, freely rotating Single protects the shaft from damage when applying the pull-off force
- Extremely durable due to rolled thread
- Including KUKKO special grease

MASTER DATA

GTIN [EAN]	4021176268373
Country of origin	DE
Case material	Tool steel
Series	6
Gross weight [kg]	0,61 kg
Package contents	1 piece
Packaging Act	PP 05
Global sales capability given	Yes
